

Musculoskeletal Radiology Conferences & Lectures

Doctor column format is MSK Faculty (or fellow if no faculty assigned)/MSK Fellow

Rheumatology and Pathology contact fellows change annually and are responsible for putting together a list of cases to be presented at their respective conference. The list should have the patient's full name, medical record number, a brief history indicating why the case is being presented and any specific studies of interest. Lists should be given to the MSK Radiology administrative assistant at least ONE WEEK PRIOR to the day of the conference. If there are films from the VA, or other outside hospital, the Rheumatology contact person should provide them along with the list. Radiology Fellow should obtain outside films needed for the Bone tumor/Pathology conference.

Administrative assistant delivery info: e-mail ascheuers@uwhealth.org; office E1/315; fax 263-5112
