UNIVERSITY OF WISCONSIN
PRACTICAL IMAGING AND INTERVENTION
2017

July 10 to 13, 2017
**Travel days: July 9 and 14**

Arctic Lodges Ltd.
#20 - 2995 2nd Ave W
Prince Albert, Saskatchewan, Canada
http://www.arcticlodges.com

Must be in SASKATOON on July 9

Provided by:
University of Wisconsin School of Medicine and Public Health
Department of Radiology
and
Office of Continuing Professional Development in Medicine and Public Health
GUEST FACULTY
Paul Christy, MD
Interventional Radiologist, Methodist Hospital, Omaha, Nebraska
Peter Dempsey, MD
Medical Director, Breast Imager, MD Anderson Cancer Center, Houston, TX

UNIVERSITY OF WISCONSIN SCHOOL OF MEDICINE AND PUBLIC HEALTH FACULTY
Louis Hinshaw, MD (Course Co-Director)
Professor of Radiology, Abdominal Section, Chief of Abdominal Imaging and Intervention, University of Wisconsin
Fred T. Lee, Jr., MD (Course Co-Director)
Professor of Radiology, Abdominal Section, Director of Interventional Services, University of Wisconsin
Mike Tuite, MD (Course Co-Director)
Professor of Radiology, Musculoskeletal Section, Vice-Chair of Clinical Services, Department of Radiology, University of Wisconsin
Kara Gill, MD
Assistant Professor of Radiology, Pediatric Radiology, University of Wisconsin
Tom Grist, MD
Professor of Radiology and Chair of the Department of Radiology, MRI Section, University of Wisconsin
Paul Laeseke, MD, PhD
Assistant Professor or Radiology, Interventional Section, University of Wisconsin
Ken Lee, MD
Associate Professor of Radiology, Musculoskeletal Section, University of Wisconsin
Cristopher Meyer, MD
Professor of Radiology, Thoracic Section, University of Wisconsin
Charles Mistretta, PhD
Professor of Medical Physics and Radiology, University of Wisconsin
Erica Riedesel, MD
Assistant Professor of Radiology, Pediatric Section, University of Wisconsin
Scott Reeder, MD, PhD
Professor of Radiology, MRI Section, University of Wisconsin
Jason Stephenson, MD
Asst. Professor of Radiology, Musculoskeletal Section, University of Wisconsin
Jamey Weichert, PhD
Associate Professor of Radiology, University of Wisconsin
Shane Wells, MD
Assistant Professor of Radiology, Abdominal Imaging and Intervention, University of Wisconsin
EDUCATIONAL PROGRAM

Sunday, July 9
Arrive in Saskatoon
6:30 PM Dinner at the Hotel, Saskatoon

Monday, July 10
6:30 AM Depart from Saskatoon
9 AM Arrive at Lodge
9 AM-6 PM Educational videotapes available for viewing
6-7 PM Fred Lee and Louis Hinshaw – Bench to Bedside – How to be an Entrepreneur
7-8 PM Dinner
8-9 PM Tom Grist – Leadership in Radiology – What does the future hold?
9-10 PM Jason Stephenson - Medical School Radiology Education – Current Concepts and Trends

Tuesday, July 11
8-9 AM Ken Lee - Platelet-rich Plasma Injection for Treatment of Sports-related Tendon injuries
9 AM-6 PM Educational videotapes available for viewing
6-7 PM Mike Tuite - Know your blind spots: Top 10 missed extremity fractures
7-8 PM Dinner
8-9 PM Charles Mistretta - Quantitative 4D DSA and Real time 4D Endo-Fluoroscopy
9-10 PM Paul Laeseke - Abdominal 4D-DSA: Practical Applications

Wednesday, July 12
8-9 AM Shane Wells – Non-surgical Management of Small Renal Masses
9 AM-6 PM Educational videotapes available for viewing
6-7 PM Scott Reeder - MRI for the diagnosis of appendicitis
7-8 PM Dinner
8-9 PM Kara Gill – US of the Appendix
9-10 PM Erica Riedesel – Advanced Techniques in Pediatric Abdominal US
Thursday, July 13
8-9 AM  Jamey Weichert - New targeting approaches to cancer imaging and therapy
9 AM-6 PM  *Educational videotapes available for viewing*
6-7 PM  Cris Meyer – Difficult to Diagnose Lung Cancer on CT
7-8 PM  *Dinner*
8-9 PM  Peter Dempsey - The ever changing screening mammography recommendations (and the true facts and data)
9-10 PM  Paul Christy – At the Edge of IR

Friday, July 14
10 AM  Depart Lodge
1 PM  Arrive in Saskatoon

**LEARNING OBJECTIVES**

At the conclusion of this educational activity, the learner should be able to:

1. Explain the diagnosis, treatment and practical applications of imaging from the practical to the cutting edge with a focus on Musculoskeletal Imaging, Abdominal Imaging and Pediatric Imaging.
2. Identify current, cutting edge MRI techniques and their clinical applications.
3. Recognize and be able to understand the potential utilization of advanced imaging techniques such as 4D imaging.

**TARGET AUDIENCE**

This course has been designed to give practicing radiologists a review and update of current concepts in diagnostic and interventional radiology while also exploring the future of imaging and Radiology.

**ELEMENTS OF COMPETENCE**

This CME activity has been designed to change learner competence and focuses on the American Board of medical Specialties areas of patient care and procedural skills, and medical knowledge.
OBJECTIVE AND SCOPE

The main focus of the meeting this year will be on Interventional Radiology, Musculoskeletal Radiology, Pediatric Radiology and the future of the specialty.

Familiarity with the above topics will be increased through attendance at scheduled lectures and participation in informal small group discussions with faculty and other participants throughout the course. Attendance is limited to 32 registrants including faculty, so registrants can spend time in small group discussions. Educational videotapes will be available for viewing at any time.

STATEMENT OF NEED

Rapid technological advances make the world of Radiology an ever-changing environment. To keep up with the most effective imaging choices for the most comprehensive patient care, it is imperative that discussion of and education on the latest advances in imaging techniques remains at the forefront in the minds of our radiologists. The Planning Committee has determined a strong need for this conference because of the progressive content nature, requests from past attendees, and evaluation summaries from previous years.

CREDIT

Accreditation Statement
The University of Wisconsin School of Medicine and Public Health is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Credit Designation Statement
The University of Wisconsin School of Medicine and Public Health designates this live activity for a maximum of 15 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Conference Completion Report
You will be emailed a conference completion report approximately 2-3 weeks post conference.

Policy on Faculty and Sponsor Disclosure
It is the policy of the University of Wisconsin School of Medicine and Public Health, University of Wisconsin-Madison School of Nursing, Continuing Education in Nursing and University of Wisconsin-Madison School of Pharmacy, Division of Pharmacy Professional Development, that the faculty, authors, planners, and other persons who may influence content of this CE activity disclose all relevant financial relationships with commercial interests in order to allow CE staff to identify and resolve any potential conflicts of interest. Faculty must also disclose any planned discussion of unlabeled/unapproved uses of drugs or devices during their presentation(s). Detailed disclosures will be made in the activity materials.
**FOR FURTHER INFORMATION**

For questions please contact J. Louis Hinshaw, MD at 608-334-2297 or jhinshaw@uwhealth.org

For general conference information contact:
J. Louis Hinshaw, MD

G3/310 CSC
600 Highland Ave
Madison WI  53792
Phone: (608) 263-4515; Fax (608) 263-0124
Email: jhinshaw@uwhealth.org
or Karen Knipschild, email knipschild@uwhealth.org

**CONFERENCE FEES**

The 2017 Practical Imaging and Intervention Conference is fully booked.

This is a bi-annual event. For 2019, deposits will likely be due by end of 2018, with final payment in the spring.

Total cost in 2017 is $3,295 (plus taxes to be paid on site), all inclusive of Conference Registration Fee, Transportation between Saskatoon and Arctic Lodges, Meals, Accommodations, Boats with Guides.
