

UWHC Internal Medicine Preliminary Year - Radiology

Comprehensive Curriculum

Didactic/Case-Based Learning

- Special Lectures Series for interns in July
- Internal Medicine Core Curriculum – 2 hr block once a week
- Morning Report – Resident/Intern 4 days a week
- Medical Grand Rounds [weekly presentations by faculty or Visiting Professors]
- Advances [weekly lectures by the residents]
- Tissue Conference [clinical, pathology and radiology]
- Morbidity and Mortality Conference [monthly review of errors or poor outcomes]
- Journal Club/Critical Reading of Literature/Evidence Based Practice Presentations
- Weekly case-based pre-clinic primary care conference
- Intern Report with the Program Director once a week

**During rotations, you attend conferences pertinent to that rotation. Attendance at medicine conferences is not expected during radiology months.

PG – 1 Year [Total ward time about 28 – 32 weeks]

- Radiology electives – Two months, no call responsibilities
- General Medicine Wards: Five to seven 4-week blocks [UW, VA and Community Hospital (Meriter)]
- Specialty Medicine Wards: Generally one 4-week blocks [usually hematology, oncology, or gastroenterology].
- Non-ward rotations: Approximately 1 month - These include UW and VA ER and clinic blocks.
- Vacation: Three weeks (either taken at once or split into a 1- and 2-week combination)
- No continuity clinics
- Night float – depending on scheduling
- Two week Anesthesiology rotation depending on availability

**The number of ward months and assignments are dependent on the number of interns in the program, so there is some variability in the scheduling year to year. Most interns are scheduled for seven ward months.

PG-1 Call

- General Medicine - UW every 6th night, VA and Meriter every 5th night
- UW Hematology, Oncology, and Gastroenterology every 6th night
- Night float at UW for two weeks (7 shifts in two weeks)
- ER rotation - overnight call about once per week
- No overnight call on VA Urgent Care and Outpatient Clinic Blocks
- Radiology electives - no weekend or call responsibilities

Weekly Required Conference Schedule for Interns and Residents

	Monday	Tuesday	Wednesday	Thursday	Friday
10:45 – 11:45 am	AM Report at UW and VA	Resident and Intern Reports	AM Report at UW and VA	Internal Medicine Core Curriculum Lecture (2 hrs)	AM Report at UW and VA
Noon – 1 pm		Advances in Medicine	Tissue Conference, Journal Club or Morbidity & Mortality		Dept of Medicine Grand Rounds

****There are also many subspecialty and interdisciplinary conferences that are ongoing during the academic year.**

Internal Medicine Weekly Conference Schedule ★★

Monday

UW Morning Report: 10:45 am ★

VA Morning Report: 10:45 am ★

***Transplant Conference: 12 noon**

Breast Conference: 12 noon

Med-III ER Conference: 12:15 pm

***Chest Conference: 1:00 pm**

Tuesday

Geriatric Core Topic Lecture Series: 7:30 am

***Dermatology Grand Rounds: 8:00 am**

UW and VA Intern Combined Morning Report: 10:45 am ★

UW and VA Resident Combined Report: 10:45 am ★

Advances in Medicine: 12 noon ★

Cardiovascular Imaging Conference: 12 noon

Med-III Topic Oriented Conference with Faculty: 12:30 pm

Kidney Grand Rounds: 4:00 pm

Gastroenterology & Hepatology Clinical Case Conference: 4:30 pm

Infectious Disease Conference: 4:30 pm

Gastroenterology & Hepatology Grand Rounds: 5:30 pm

Wednesday

Geriatrics Fellows Case/Journal Club: 7:30 am

Cath Interventional Conference: 7:30 am

ID Journal Club: 7:30 am

***UWCCC Grand Rounds: 8:00 am**

***Primary Care Conference: 8:00 am**

UW Morning Report: 10:45 am ★

VA Morning Report: 10:45 am ★

Sleep Medicine Conference: 11:00 am

Journal Club, Tissue Conference and M&M Conference: 12 noon ★

Nephrology Fellowship Curriculum 2004 – 2005: 12 noon

HAART Conference HIV Therapy: 12:15 pm

Palliative Care Cases Conference: 1:00 pm

Thursday

***CV Medicine Grand Rounds: 7:30 am**

Rheumatology Journal Club: 8:00 am

Rheumatology Fellowship Clinical Conference: 10:00 am

UW and VA Intern Joint Conference: 10:45 am - 1:00 pm ★

Gastroenterology IBD Conference: 12 noon

***Pulmonary & Critical Care Conference: 12 noon**

Med-III Medicine Topic Oriented Conference with Faculty: 12:30 pm

Cardiology Fellows Conference: 4:00 pm

***Endocrinology Grand Rounds: 4:00 pm**

Friday

***Allergy Conference: 8:00 am, K6/120 CSC.**

Bone Marrow Transplant Conference: 10:30 am

Medical Grand Rounds: 12 noon

Hematology Clinical Conference: 1:15 pm

**★ Core Curriculum and is required attendance for residents
These conferences are for UWHC and VAH**

★★ Meriter Hospital has its own morning report (every day at 11:00 am) and Grand Rounds (Friday at 8:00 am)

Internal Medicine Core Curriculum

Intern Summer Lecture Series - Approach to the Patient with:

- Acute Mental Status Changes
- Arrhythmia
- Stroke
- Congestive Heart Failure
- Oncologic Emergency
- Shortness of Breath
- Chest Pain/Acute Coronary Syndromes
- Shock
- Fever
- Acute Renal Failure
- Electrolyte Disturbances
- Sepsis
- Acid/Base Disturbances
- GI Bleed
- Abdominal Pain
- Acute Intoxication
- GI Bleed
- Abdominal Pain
- Anaphylaxis/Asthma
- Diabetic Ketoacidosis/Endo Emergencies
- Hypertensive Urgencies and Emergencies
- Pain Crisis/End of Life Care
- Pulmonary Embolism
- Bleeding/Transfusion Emergencies
- Inpatient Diabetes Management
- End Stage Liver Disease
- Approach to Medicine Bedside Procedures
- Approach to the clinic pt – clinical guidelines

Allergy/ Immunology

- Approach to the Patient with an Acute Allergic Syndrome
- Immunodeficiency Diseases [except AIDS]
- Chronic Urticaria/Angioedema
- Asthma
- Eosinophilic Diseases

Cardiology

- Conduction System Disease/Arrhythmias
- Valvular Heart Disease
- Acute Chronic Heart Failure/Shock
- Hyperlipidemia, Risk Stratification and Primary Prevention of Coronary Artery Disease
- Cardiac Exam
- Unstable Angina and Acute Myocardial Infarction
- Preoperative Cardiac Assessment
- ECG Rounds
- Atrial Fibrillation
- Post-MI Complications

Career Symposium

- Balancing Career and Personal Life
- Discussion of Career Options
- University Appointments
- Tenure Track
- Academic General Internal Medicine and Subspecialties
- CHS Track
- Teaching and Practice at an Affiliate Institution
- Practice Opportunities in Wisconsin
- General Medicine Practice in a University Program
- How to Get the Most Out of Residency
- What Should I Accomplish During Fellowship
- How to Get Started as an Academic Subspecialist
- Private Practice as a Subspecialist
- Health Care Policy
- How to Prepare for Fellowship
- Managed Care

- Internal Medicine Practice: Financial & Contractual Concerns
- Medical: Legal and Risk Management Issues
- What I Wish I Had Learned in Residency and Pearls From Recent Graduates
- Life in a Large Group
- Financial Planning
- Women in Academic Medicine
- How to Interview for a Position

Endocrine

- Disorders of Bone
- Thyroid Disease
- Adrenal/Pituitary Disorders
- Diabetes Management
- Calcium Disorders
- Male Hypogonadism

Gastroenterology

- Diarrhea and Malabsorption
- Inflammatory Bowel Disease
- Abdominal Pain Overview and Pancreatitis
- Gallbladder & Biliary Tract Disease [cholecystitis, PBC, SC]
- Peptic Ulcer Disease/GI Bleed
- Acute and Chronic Hepatitis
- Colon Cancer
- Liver Disease
- Diseases of the Esophagus
- Functional Gastrointestinal Disease
- Update in Hepatitis C
- Liver Transplantation

General Medicine/Misc.

- Contraception
- Low Back Pain
- Alcoholism
- Well Adult Care and Adult Prevention
- Common Foot Problems in Adults and Diabetics
- Advance Medical Directives
- Pre-Op Consultation
- Hypertension
- Headache
- Poisoning/Overdose
- Cost-Effective Medicine
- Biostatistics
- Depression
- Physician Impairment
- ENT Emergencies
- Basic Ophthalmology/Red Eye Evaluation
- Evidence Based Medicine
- Travel Medicine
- Balancing Career and Family Life
- Professionalism
- Drug Seeking Behavior
- Smoking Cessation
- Systems based practice
- Medical Ethics
- Dermatology for the General Internist

Geriatrics

- Dementia
- Incontinence
- Geropsych Essentials: Depression and Anxiety
- Osteoporosis
- Delirium
- Falls: Mobility and Gait
- Geriatric Pharmacology
- Outpatient Geriatrics

Hematology

- The Evaluation of Lymphadenopathy and the Abnormal CBC
- Acute and Chronic Leukemias
- Anemia I & II
- Bone Marrow Transplant
- Hypercoagulable States/Bleeding Disorders
- Transfusion Medicine
- Multiple Myeloma/MGUS

Infectious Disease

- Antimicrobial Therapy
- Sepsis
- Meningitis/Encephalitis
- Sexually Transmitted Disease
- HIV
- Community Acquired Pneumonia
- Soft Tissue/Septic Arthritis/Osteomyelitis
- Tuberculosis/PPD Testing
- Systemic Fungal Disease
- Endocarditis
- Urinary Tract Infections
- Immunizations
- Hepatitis B and C

Nephrology

- Fluid and Electrolytes Disorders [Na, H₂O, K]
- Acid-Base Disorders
- Nephritic vs Nephrotic Syndrome
- Chronic Renal Failure/Dialysis/Transplant
- Acute Renal Failure
- Approach to the Patient with Hypertension
- Abnormal Urinalysis

Neurology

- Movement Disorders
- Cerebrovascular Disease
- Seizure Disorders
- Stupor and Coma
- Neuromuscular Disease
- Neuropathies
- Demyelinating Disorders

Oncology

- Principles of Oncology
- Breast Cancer
- GU Tumors
- Lung Cancer
- Death and Dying
- Pain Management – Acute & Chronic

Pulmonary

- Mechanical Ventilation
- Pulmonary Function Testing
- COPD & Cor Pulmonale
- Sleep Disorders
- Interstitial Lung Disease
- Environmental Lung Disease/Sarcoid
- Asthma
- Thromboembolic Disease
- Pulmonary Nodule Evaluation
- Chronic Cough
- Update in Tuberculosis

Radiology

- Basic Chest X-ray Reading
- Abdominal Imaging
- Brain Imaging – CT/MRI
- Musculoskeletal Imaging

Rheumatology

- The Painful Shoulder, Hip and Knee
- Polyarthritis [RA, DJD, SeroNeg]
- SLE
- Vasculitis/GCA/PMR
- Polymyositis/Dermatomyositis + Scleroderma
- Seronegative Spondyloarthropathies
- Other Connective Tissue Diseases
- Update in RA

Women's Health

- Evaluation of a Patient with a Breast Mass
- Polycystic Ovarian Syndrome
- Health Care Issues in Lesbian Patients
- Menstrual Irregularities
- Domestic Violence Core Curriculum
- Hypertension in Pregnancy
- Common Medical Issues in Pregnancy
- Approach to abnormal pap
- Menopause
