

Division of Nuclear Medicine Procedure / Protocol

CONTINUING MEDICAL EDUCATION FOR NM TECHNOLOGISTS
UPDATED: JULY 2007

FORMER QA POLICY

Purpose: To establish requirements for evidence of continuing education for nuclear medicine technologists at the University of Wisconsin Hospital & Clinics, as well as technologists in inactive status needing to meet continuing education requirements.

Policy: Refer to Radiology Policy and Procedure for Continuing Medical Education.

Procedure:

- Nuclear Medicine Section will maintain a library of continuing education audio cassettes and video cassettes for the purpose of continuing education for nuclear medicine technologists.
- Technologists will view educational tapes should when daily tasks are completed.
- The technologist is responsible to record and report CME to the credentialing organization they are with (NMTCB or ARRT) in order to maintain their credentials.
