

## Division of Nuclear Medicine Procedure / Protocol University Hospital and The American Center

---

CONTINUING EDUCATION FOR NM TECHNOLOGISTS  
UPDATED: AUGUST 2020

FORMER QA POLICY

---

**Purpose:** To establish requirements for evidence of continuing education for Nuclear Medicine Technologists as required by the credentialing organizations such as the NMTCB, ARRT or ACR.

**Procedure:**

- The technologist is responsible to record and report continuing education to the credentialing organization they are with (NMTCB or ARRT) in order to maintain their credentials.
- The technologist is responsible to recoding their credits in the credit and certification renewal book. Credits will be listed by date, event and number of credits. If available, the certificates should be printed or copied and placed behind your log sheet to support the log.
- The technologist is responsible for keeping the logbook current with their credentialing organization reporting structure. For example, NMTCB requires credit attestation every two years with your renewal.
